NATIONAL REHABILITATION INFORMATION CENTER

A possible source of materials to support International Year of the Disabled Person activities is the National Rehabilitation Information Center (NARIC). Supported by a grant from the National Institute of Handicapped Research, the Center is located on Catholic University of America's campus and is sponsored by the School of Library and Information Science. It houses a collection of rehabilitation research reports, books, audiovisual materials, reference books and journals of value to anyone with an interest in the rehabilitation of physically or mentally disabled persons. The services, of particular help to disabled individuals and rehabilitation professionals, are available to anyone and include preparation of bibliographies and assistance in locating answers to reference questions. When available, duplicate copies of reports are mailed free of charge. There is a nominal fee for photo duplication. Audiovisual materials are available for use at the center or may be obtained for the cost of reproduction. The cost of computerized literature searches varies with complexity. For further information, contact NARIC, 4407 Eighth Street, NE, The Catholic University of America, Washington, DC 20017.

Editor's notes:

The Resource Exchange column in the first issue of SALIS News proved to be an extremely popular item, and an effective method for clearing out shelves of duplicate journal volumes. Every single item listed went to a good home. Several people needed issues of ALCOHOL HEALTH AND RESEARCH WORLD; I'm sorry I couldn't fill all the requests.

We have a continual need for contributions for SALIS News from our readers; please send in news items, questions, duplicate lists, suggestions, reviews, etc. to:
